- GCP
- AWS
- Firebase
- Docker

## LANGUAGES

- Spanish - Native
- English EFSTET Certificate | C2 - Proficient

## OTHER SKILLS

- Scrum Foundation Professional Certificate (SFPC) | CertiProf

## ABOUT ME

I just find myself one day watching Javascript and CSS videos on my spare time, and then I realized that I have to become a web developer. I also play a tons of LoL.

## PROFESSIONAL EXPERIENCE

### Node Developer at Tap Billetera | Dec, 2021

At Tap I found a product that I love, and started to get better at design patterns and architectures. Currently I am working at Payana, an invoices management solution for small bussiness.

### React/Node Developer at Softtek | Aug, 2021 - Dec, 2021

In Softtek I finally started to put my hands on productive JavaScript. Using React, Node + Express and NestJs, I'm was part of the team that brought to OSDE the solution to enroll new clients online.

### JavaScript Fullstack Developer Freelance | Jan, 2021 - Jul, 2021

I started my freelance journey to gain experience in new technologies that I love. One of my projects was a portfolio for a wedding filmmaker and photographer, using NextJs and Sanity as principal tools.

### Java Developer at BPMX | Oct, 2020

My first professional opportunity. My role was to maintain and update a private Java framework and plugin. In my daily work I used Java, Gradle, sometimes JavaScript and CSS, GWT, AWS, among others.

## ACADEMIC BACKGROUND

### Universidad Nacional de La Plata (UNLP)

Computer Engineer | 2016 - Present

### Digital House

Fullstack Web Developer | 2019 - 2020

## MY PROJECTS

### CAT Filmmaker | Jul, 2021

I mocked a portfolio design in Figma for a wedding filmmaker, and then bring it to life with NextJs and Sanity Studio, allowing him to manage and show his content to the world. You can see it on [www.catfilmmaker.com](http://www.catfilmmaker.com).
